Stanbic IBTC DiSEP 3.0

This program is designed to aid the identification and attraction of unique digitally savvy candidates, train, develop and position them to be able to participate in supporting the digital transformation journey of Stanbic IBTC Group and also help bridge the gap of digital talent scarcity in the employment market. It is an intensive program and a unique opportunity for young people who are resourceful and passionate developing required skills to build a fast-tracked career.

The Stanbic IBTC Digital Skills Empowerment Program is an initiative that will provide excellent digital training and upskilling to a group of eligible candidates with digital skills to build their capabilities and broaden their digital scope to make them fit for hire as digital talent within and outside Stanbic IBTC.
